Vision Statement

Our developed system **eMarketPlace** is a website based software. We have developed this software considering some factors. The users of the software can be any person or organization willing to buy and sell products.

1. Project Goals

- To ease the troubles of people to buy and sell things online without any shop, without being present all the time.
- To save the time of customers by not going to the market to buy a product.
- To inform the customers about new products of different categories.
- To help the vendors advertise their products and expand their business.

2. Project Scope

- Customers can search and order product by name or category based on their choices. They can check the current order status too. They can provide reviews and ratings of the ordered product when the product has been delivered to them. They can also request for refund after they get their ordered product.
- Vendors can add new products and edit existing products information. They can add sale offer on products as they wish. They can also track the orders from their shops. They can also see the reviews and ratings of the products of their shops.
- Admin has the complete control to approve the requests of the vendors to join the system. They can add new product categories as well as subcategories and attributes accordingly. They can also see the comments and complaints from the users about the current system. They have the ability to monitor all the orders.
- The scope of digital/online payment of orders is not included in the system

3. Milestones and Deliverables:

- Database design and implementation.
- Designing sign in module, registration process of the website. Connection with database.
- Vendor's Dashboard and product update module.
- Search products interface
- Ordering of items.
- User's home page completion.

- Review & rating feature, user's module and vendor's module integration.
- Central admin's dashboard & update module
- Three modules' (user, vendor, admin) integration and testing.

eMarketPlace is very easy to use by people of all ages who can use a computer and have access to the internet. The system has proper authentication system both for the customers and the vendors. Ordering products through **eMarketPlace** is very easy and as a consumer can not give reviews and ratings on a product until they get the product in his hand, the probability of providing fake reviews are reasonably low.

Software Requirement Specification

Revision History

Version	Date	Name	Description
1	09/12/19	Rudaiba Adnin Abhik Bhattacharjee	Initial Document

1 Introduction

1.1 Overview

The **eMarketPlace** software will be a website based software available to computer users having internet access. This is basically an e-commerce website. This software will provide customers with facilities to search and order desirable products and provide reviews on consumed products. It will allow vendors to add new product and advertise their products.

This document provides information on the requirements for the **eMarketPlace** software. Project goals, scope and definitions are given in the introduction. Design constraints and application environment are described in the following section. Non-functional requirements are outlined for later verification. Functional requirements are given to show the system features and expected user interaction.

1.2 Goals and Objectives

The main objective of this project is to ease the lives of customers and vendors so that customers don't need to waste their time and energy by going to the market to buy necessary products whereas vendors can easily advertise their products and reach more customers online. It aims at building a platform for buyers and sellers from all over the country.

1.3 Scopes

eMarketPlace website will:

1. Provide separate interfaces for customer(user) and vendor.
2. Allow customers to search and order products of different categories and prices easily, review and rate products when they are delivered
3. Allow vendors to provide advertisements for their products, control their products' price and see the reviews of their products.

1.4 Definitions

eMarketPlace Website – the product that is being described here; the software system specified in this document.

Project – activities that will lead to the production of the eMarketPlace website.

Client – the person or organization for which this eMarketPlace website is being built.

User – the person or persons who will actually interact with the eMarketPlace .

Use case – describes a goal-oriented interaction between the system and an actor. A use case may define several variants called scenarios that result in different paths through the use case and usually different outcomes.

Scenario – one path through a user case

Actor – user or other software system that receives value from a user case.

Developer – the person or organization developing the system, also sometimes called the supplier.

Stakeholder – anyone with an interest in the project and its outcomes. This includes clients, customers, users, developers, testers, managers and executives.

2 General Design Constraints

2.1 eMarketPlace Website Environment

The eMarketPlace system will include a website designed to work on a computer browser. This system will interface with a server of our design.

2.2 User Characteristics

eMarketPlace Users: People of all ages who can operate a computer and have access to the internet. Customers(Users) can be any person with a valid email ID. But Vendors' accounts must be approved by the central admin.

2.3 Mandated Constraints

The system will run on web based platform. This platform was chosen based on experience with PHP and team consensus.

3 Nonfunctional Requirements

3.1 Operational Requirements

Usability: 95% of users will not need to read the user manual to be able to use the application.

3.2 Performance Requirements

Maintainability: Changes made to the interface or adding extra feature can be adopted without altering the website design.

3.3 Security Requirements

The **eMarketPlace** website has some main features. One of the main features is ordering of items by the consumers (users). It is ensured that order cannot be placed until a user's login is authenticated. Moreover, all the passwords of users and vendors and central admin are kept in an encrypted form in the database.

3.4 Documentation and Training

The **eMarketPlace** system will be delivered to the users as a website with no documentation guidelines. A user guide and system documentation will be provided to project stakeholders.

3.5 *External Interface*

3.5.1 *User Interface*

The user interface will be eye-catching and visually appealing. When users visit the website, the interface will provide a smooth transition in the home page which has a straightforward, understated look and feel. From there he/she can navigate to other pages and he/she can find the way of navigation just by moving the mouse of the computer.

The interface will be intuitive. As a website it will be streamlined and simple to use. No training will be provided and it is expected that 95% of users will be able to use the app without any training.

4 Functional Requirements

4.1 *Required Features*

User Module:

- Search products
- Order products.
- Update profile.

Vendor Module:

- Add products
- Update products.

Admin Module:

- Update category & subcategory of products.
- Add new vendors.
- Approve or reject order of products.

4.2 Optional Features

User Module:

- Give rating and review of products.
- Give feedback.

Vendor Module:

- View order of products.
- View top selling products.
- View top rated products.

Admin Module:

- Add product attributes.
- View feedback.
- Add coupon.
- Add slider.

Software Project Management Plan

Change History

Revision	Change Date	Description of changes
V1.0	09/15/19	Initial release

1 Overview

1.1 Project Deliverables

Date	Deliverable
04/26/19	Requirements Specification
05/03/19	Project Plan
05/10/19	Iteration #1 Plan
05/17/19	Database and Interface design
05/31/19	Technical Prototype
06/14/19	Testing on Prototype and Demonstration to Moderators
07/05/19	Architecture Document
07/19/19	Iteration #1 Complete
07/26/19	Test Report
08/02/19	Iteration #2 Planning, Design Modification
08/23/19	Iteration #2 Complete
08/30/19	User Guide and System Administration Manual
09/13/19	Product Released

1.2 Assumptions and Constraints

1.2.1 Assumptions

Assumptions:

1. All the team members have access to the internet while developing the system.
2. All the team members have the same version of operating system and other tools.
3. They have enough disk space to store the source codes and test case data in local machines.
4. Running the system on local server and demonstrating it by the same machine will be acceptable by the moderators.

1.2.2 Constraints

Constraints:

1. The website can only be visited through a computer browser currently.
2. Buyers cannot pay using digital/online payment method.

1.3 Success Criteria

A working prototype, which is easy to use, that allows users to search and order products as well as vendors to add and update products.

1.4 Definitions

Term	Definition
Actor	User or other software system that receives value from a user case. 3 kinds of actors in this system: User, Vendor and Central Admin
Baselined	The work product has undergone a formal review and can only be changed through the prescribed change control procedures
Customer	The person or organization for which this eMarketPlace website is being built.
Developer	The person or organization developing the system, also sometimes called the supplier.
Project	Activities that will lead to the production of the eMarketPlace website

eMarketPlace Website	The product that is being described here; the software system specified in this document.
Scenario	One path through a user case
Stakeholder	Anyone with an interest in the project and its outcomes. This includes clients, customers, users, developers, testers, managers and executives.
User	The person or persons who will actually interact with the eMarketPlace website.
Use case	Describes a goal-oriented interaction between the system and an actor. A use case may define several variants called scenarios that result in different paths through the use case and usually different outcomes.

2 Startup Plan

2.1 Team Organization

Role	Actor(s)	Responsibility
Project Supervisor	Sakshar	Review system developments weekly, giving suggestions about modification in design and development
Project Manager	Abhik	Call team meetings, coordinate communications within group, coordinate communications outside group, break out tasks, assign them to teammates
Developer	Abhik, Rudaiba, Bishal	Develop software based on requirement and architect specifications
Programmer	Abhik, Rudaiba, Bishal	Program to requirement and architect specifications
Tester	Abhik, Rudaiba, Bishal	Write test cases, perform unit testing of test cases against incremental release of code, perform integrated testing of test cases against incremental release of code, report issues
Architect	Abhik, Rudaiba	Specify overall internal workings of application

Requirement Engineer	Abhik, Rudaiba	Outline and document project dependencies and requirements. This includes internal and external dependencies.
----------------------	----------------	---

2.2 Project Communications

Event	Information	Audience	Format	Frequency
Team Meeting	Task status: completed since last meeting & planned for next; obstacles encountered; change requests in process	All team members	Informal meetings following class; Formal meetings as needed; E-mail status updates & problems as they occur	As needed
Project Status Report	Review finished items, status of prototype; review any problems, schedule slippage, programming issues	All team members, Supervisor	In-person demonstration to the supervisor	Once in a week

2.3 Technical Process

The development process is planned to be carried on an iterative and incremental way. Feedback and suggestions from the supervisor will be used from each iteration to improve the next. The first iteration will focus on basic functionality of the software. Subsequent iterations will build upon that and incorporate more features as time allows.

Tools

- Programming & Markup Languages – PHP, CSS, Javascript, SQL
- Operating System – Windows 10
- Version Control – All work products will be stored in a private git repository
- Platform – Laravel
- Development Tools – Visual Studio Code, XAMPP

3 Iteration Plans

3.1 First Iteration

In the first iteration, proper authentication for all types of accounts (Admin, User and Vendor accounts) are ensured and tested. Searching of products by users and addition & updating of products by vendors are implemented and tested. Product categories, subcategories and attributes can be added by admin without any problem.

3.2 Second Iteration

Users can order products and it is ensured that ordering is not completed until the user is logged in. Users can see the order history and review products. Vendors can see the reviews of their products and see orders from their shops. Shipping status of product can be checked and changed by the admin. Customers' comments and reports can be seen by admin.

3.3 Final Product

Users' home page is designed and developed showing the top rated and bestseller products. Users can add coupon code to the cart. All three user interfaces are integrated after proper testing.

4 Control Plan

4.1 Monitoring and Control

The following list of dates includes formal reviews outside of the Communication Plan. Milestones are included to reference where the project is scheduled to stand as these reviews occur:

Date	Review / Milestone
05/31/2019	Milestone: Technical Prototype Complete
06/14/2019	Prototype reviewed by the supervisor
07/19/2019	Milestone: Iteration #1 Complete
07/26/2019	Milestone: Test Report Complete
08/02/2019	Inspected and Reviewed by the supervisor
08/23/2019	Milestone: Iteration #2 Complete
08/30/2019	Milestone: Product Released
09/18/2019	Final Presentations

4.2 Configuration Management Plan

The following procedure is to be used when making changes to all baselined work products:

1. All project work products will be stored in a centralized private git repository.
2. All project work products (documents, source code, test cases, program data, test data, etc) will be stored in the private git repository but not all will be under change control (subject to formal change control procedures.) Only the system requirements, project plan and source code will be baselined and under configuration control.
3. Items that are subject to change control will be considered baselined after a group review at the end of the initial document creation.
4. The change control procedure once a product is baselined is:
 - (1) Anyone wanting to make a change to a baselined item notifies the manager and informs him about the details of the change
 - (2) Each member of the group has to pull from the remote main branch of the repository to a local branch before starting modification of the current version.
 - (3) A change to the project will have a suitable commit message to track initialization and subsequent changes. Every update will be pushed to a separate branch before merging to others' works.
 - (4) If anyone of the team does object to the change, the reason for objecting will be discussed at a meeting where everyone is invited to attend and voice their opinion. At the end of the meeting a democratic vote will be held to decide whether or not the change should be allowed.
 - (5) If a change takes place, the initiator must collaborate with the project manager to update the schedule and merge his/her local branch to the main branch.
 - (6) The project will then be shown to the supervisor. If the supervisor accepts most of the changes, the team members will start planning for the next work.

5 Supporting Process Plans

5.1 Test Plan

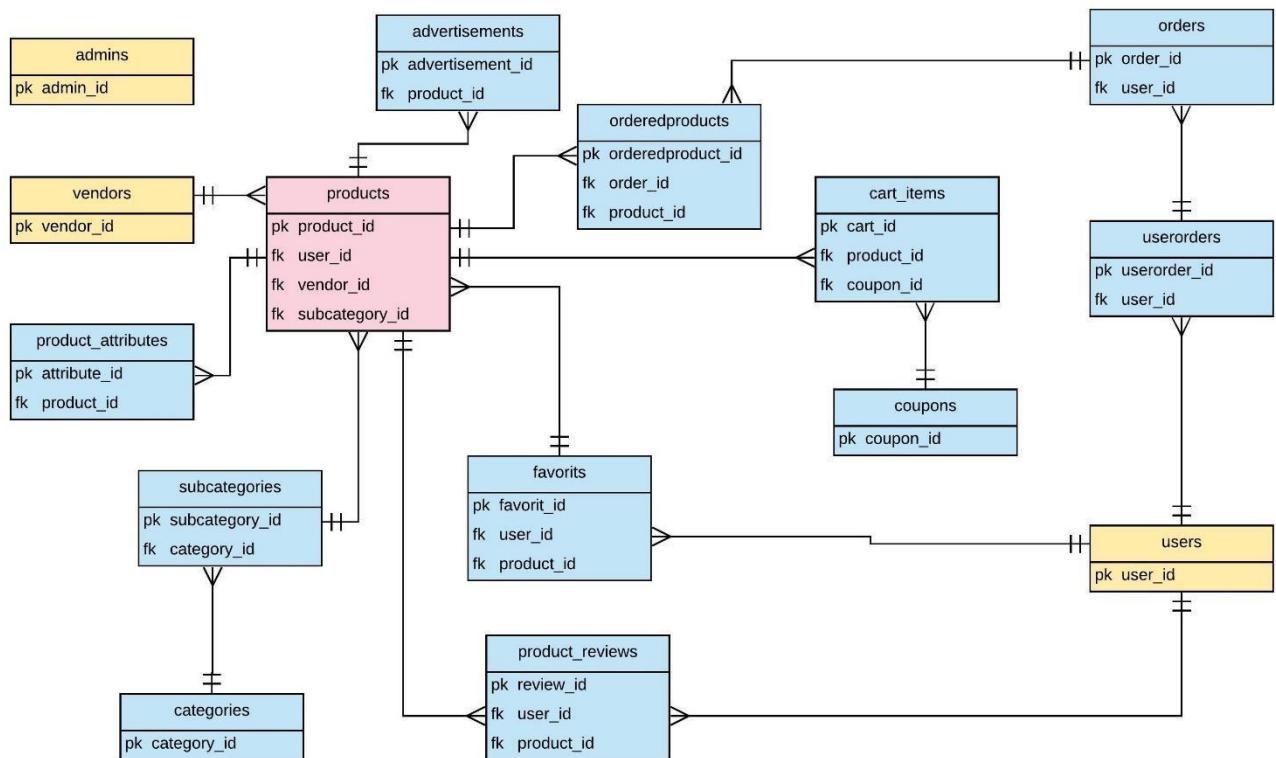

The test plan defines the items that will be tested, methods for testing, and a schedule detailing the tasks, owners, and timeline.

5.2 Product Acceptance Plan

At the conclusion of each iteration, the prototype created will be tested to ensure it meets the requirements of that iteration. No separate environment need not be set up to test functionality because the system will run on a computer browser. The prototype in that iteration will be demonstrated to the supervisor and course teachers. They will give a combined decision whether to accept the prototype or not.

User Guide

Admin Module Guide:

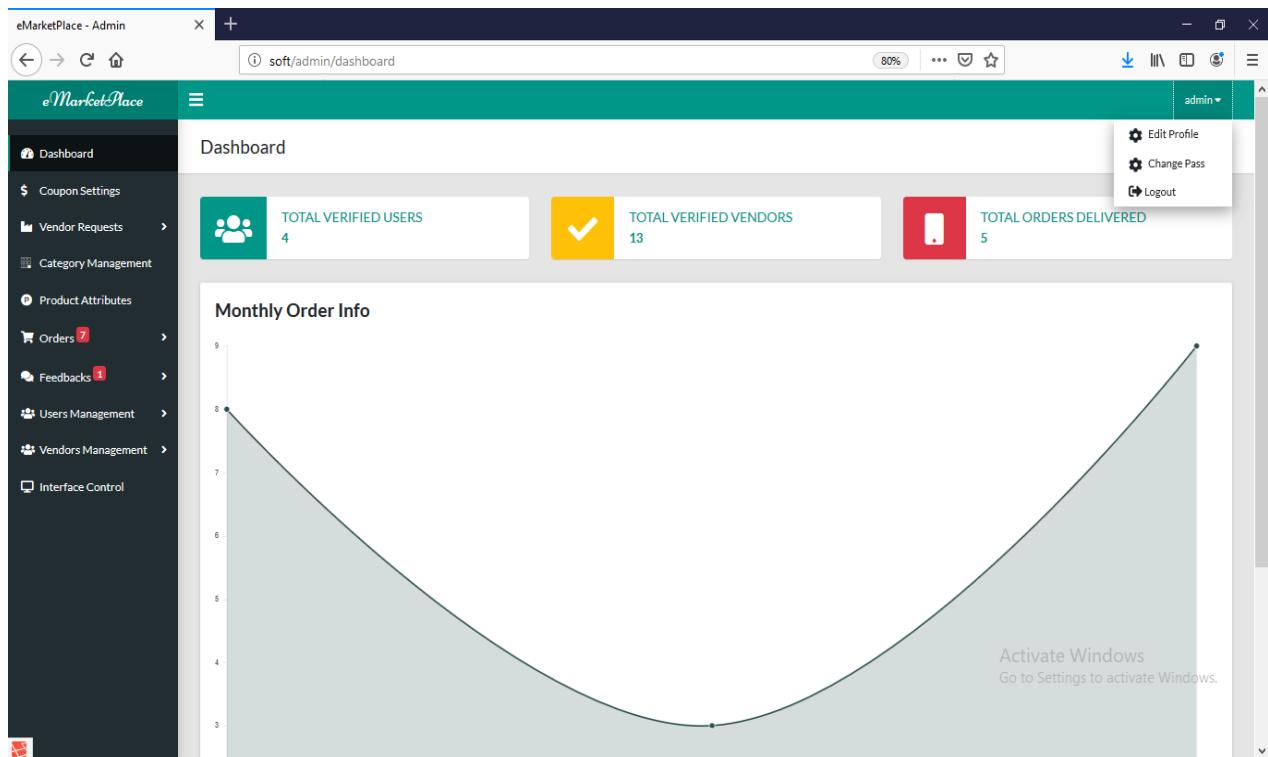

Login:

Admin logs in using password.

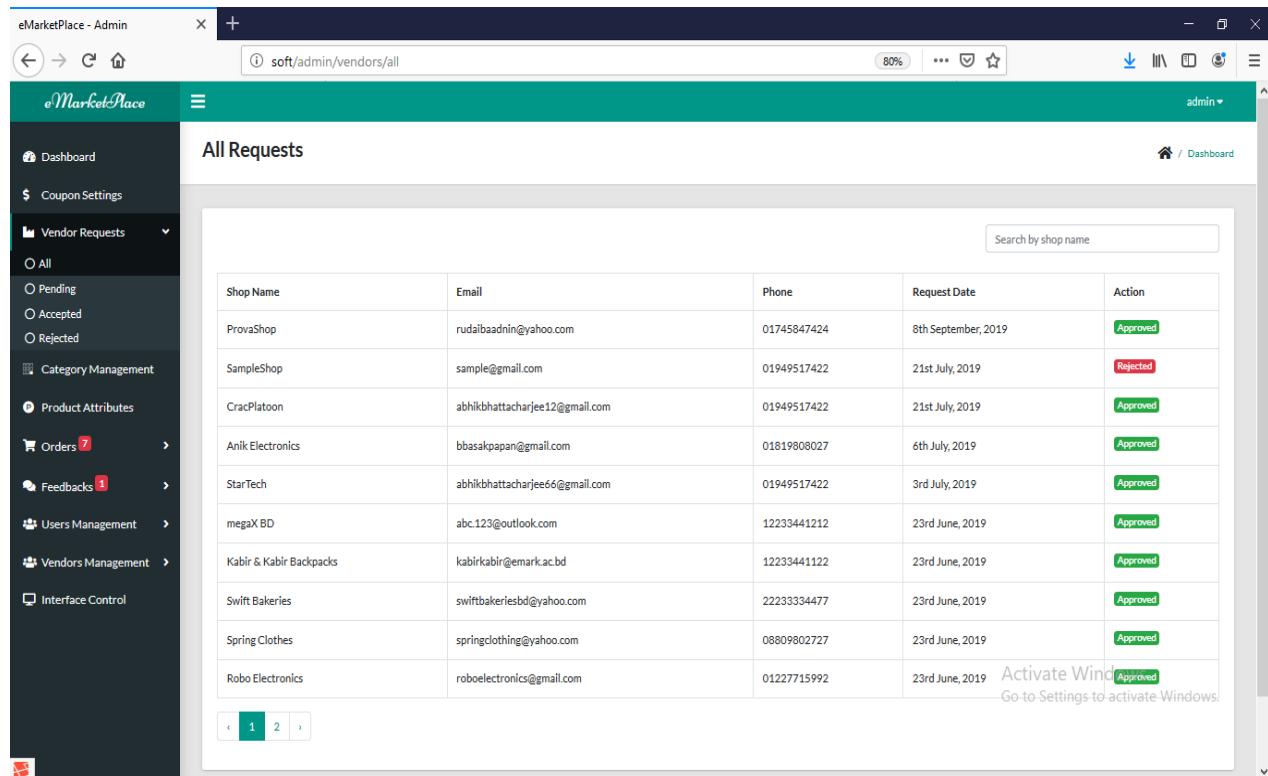

Dashboard:

After login,in the dashboard admin will see a graph representing order info . In the sidebar he will see the options to maintain the system.

Vendor Request Management:

Clicking the option “*Vendor Requests*” he can accept or reject pending vendor request. He can also see the list of all, pending, accepted and rejected vendor.

The screenshot shows the eMarketPlace Admin interface with the following details:

- Header:** eMarketPlace - Admin, soft/admin/vendors/all, admin
- Left Sidebar:** Dashboard, Coupon Settings, Vendor Requests (selected), All, Pending, Accepted, Rejected, Category Management, Product Attributes, Orders (7), Feedbacks (1), Users Management, Vendors Management, Interface Control.
- Current Page:** All Requests
- Table:** A grid of vendor requests with columns: Shop Name, Email, Phone, Request Date, Action.

Shop Name	Email	Phone	Request Date	Action
ProvaShop	rudai@baadn@yahoo.com	01745847424	8th September, 2019	Approved
SampleShop	sample@gmail.com	01949517422	21st July, 2019	Rejected
CracPlatoon	abhi@khattacherjee12@gmail.com	01949517422	21st July, 2019	Approved
Anik Electronics	bbasakpapan@gmail.com	01819808027	6th July, 2019	Approved

Kabir & Kabir Backpacks	kabirkabir@emark.ac.bd	12233441122	23rd June, 2019	Approved
Swift Bakeries	swiftbakeriesbd@yahoo.com	22233334477	23rd June, 2019	Approved
Spring Clothes	springclothing@yahoo.com	08809802727	23rd June, 2019	Approved
Robo Electronics	roboelectronics@gmail.com	01227715992	23rd June, 2019	Activate Windows Go-to Settings to activate Windows.
- Pagination:** 1, 2, 3

Category Management:

By clicking the option “*Category Management*” admin can manage the categories by adding new category, editing existing ones, by adding subcategories and selecting product attributes of those subcategories.

The screenshot shows the 'eMarketPlace - Admin' interface with the 'Category Management' section selected in the sidebar. The main area displays a 'Categories List' table with the following data:

SL #	Name	Status	Subcategories	Action
1	Stationary	Active	View	Edit
2	Home & Living	Active	View	Edit
3	Health & Beauty	Active	View	Edit
4	Home Appliances	Active	View	Edit
5	Mobile	Active	View	Edit
6	Women's Fashion	Active	View	Edit
7	Men's Fashion	Active	View	Edit
8	Electronics	Active	View	Edit
9	Computer & Laptop	Active	View	Edit

A green banner at the bottom right corner reads: "Activate Windows Go to Settings to activate Windows."

Product Attributes Management:

By clicking the option “*Product Attributes*” admin can add new attributes of products and edit them.

The screenshot shows the 'eMarketPlace - Admin' interface. The left sidebar contains navigation links: Dashboard, Coupon Settings, Vendor Requests, Category Management (with Product Attributes selected), Orders (7 notifications), Feedbacks (1 notification), Users Management, Vendors Management, and Interface Control. The main content area is titled 'Product Attribute Management' and displays a table titled 'All Product Attributes'. The table has columns: SL, Name, Status, All Attribute Values, and Action. There are four rows in the table:

SL	Name	Status	All Attribute Values	Action
1	Womens' Dress Size	Active	View	Edit
2	Shoe Size	Active	View	Edit
3	Waist Size	Active	View	Edit
4	Shirt Size	Active	View	Edit

A blue button '+ Add Product Attribute' is located at the top right of the table area. At the bottom right of the main content area, there is a message: 'Activate Windows Go to Settings to activate Windows.' The browser address bar shows 'soft/admin/productattr/index'.

Order Management:

By clicking “Orders”, admin can manage orders by accepting or rejecting pending orders. He can see the list of all, pending, accepted, rejected orders. He can also update shipping status.

The screenshot shows the eMarketPlace Admin interface with the following details:

- Header:** eMarketPlace - Admin, soft/admin/orders/all, 67%, admin ▾
- Left Sidebar:** Dashboard, Coupon Settings, Vendor Requests, Category Management, Product Attributes, Orders (7), All, Pending (7), Accepted, Rejected, Delivery Pending, Delivery Inprocess, Delivered, Feedbacks (1), Users Management, Vendors Management, Interface Control.
- Current Page:** All Orders
- Table:** A grid of order details with columns: Order Id, Order Date, Name, Phone, Email, Total, Shipping Status, Payment Method, Action. The table contains 13 rows of order data.
- Footer:** Activate Windows, Go to Settings to activate Windows.

Coupon Management:

By clicking the option “*Coupon Settings*” admin can add new coupons, edit previous ones.

The screenshot shows the eMarketPlace Admin interface. The left sidebar contains a navigation menu with items like Dashboard, Coupon Settings (which is currently selected), Vendor Requests, Category Management, Product Attributes, Orders (with 7 notifications), Feedbacks (with 1 notification), Users Management, Vendors Management, and Interface Control. The main content area is titled "Coupon Lists" and displays a table of existing coupons. The table has columns for Code, Type, Amount, Minimum Amount, Valid Till, and Action (with "Edit" and "Delete" buttons). Three coupons are listed:

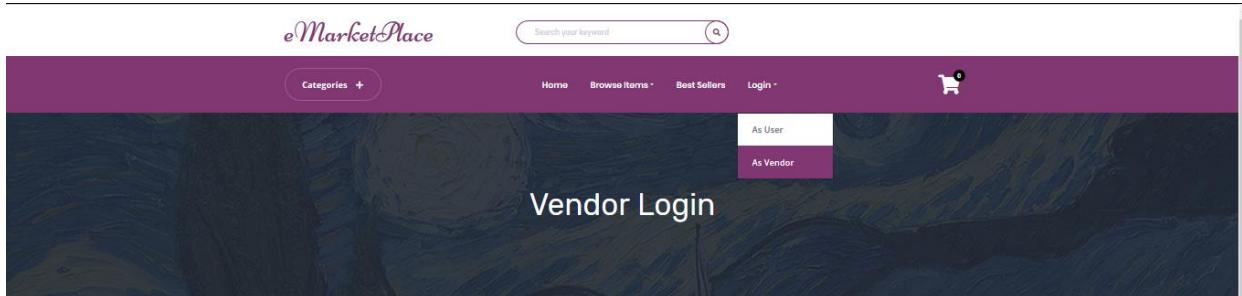

Code	Type	Amount	Minimum Amount	Valid Till	Action
NEW123	fixed	700.00	12000.00	09/30/2019	Edit Delete
EMARKET123	fixed	500.00	5000.00	10/31/2019	Edit Delete
BOISHAKH123	fixed	200.00	5000.00	09/30/2019	Edit Delete

At the bottom right of the main content area, there is a watermark that says "Activate Windows Go to Settings to activate Windows."

Vendor Module Guide:

Login & Register:

Vendor can login entering email address & password. But he will need to register his account first. He will get an email from admin if his vendor request gets accepted or rejected in mail. If his account gets accepted he will be able to login successfully.

The screenshot shows the Vendor Login page of the eMarketPlace website. At the top, there is a purple header bar with the 'eMarketPlace' logo, a search bar, and navigation links for 'Home', 'Browse Items', 'Best Sellers', 'Login', and a shopping cart icon. Below the header, the main background image features a dark, textured pattern. In the center, the text 'Vendor Login' is displayed. To the right of the login area, there are two buttons: 'As User' (white background) and 'As Vendor' (purple background). The main content area is divided into two sections: 'Log in to eMarketPlace' on the left and 'Account Login' on the right. The 'Log in to eMarketPlace' section contains instructions to view products and account details, followed by three options: 'Login as a vendor', 'Start posting your products', and 'View and manage your products/orders'. It also includes a link to create a new account. The 'Account Login' section contains fields for email ('abhibhattacharjee66@gmail.com') and password ('****'), a 'LOGIN' button, and a 'Forgot password?' link. At the bottom right, there is a message about activating Windows: 'Activate Windows' and 'Go to Settings to activate Windows.'

soft/vendor

The screenshot shows a web browser window for 'eMarketPlace | Vendor Register'. The URL in the address bar is soft/vendor/register. The page has a purple header with 'Categories +', 'Home', 'Browse Items', 'Best Sellers', 'Login -', and a shopping cart icon. Below the header is a dark banner with a textured background. The main content area is divided into two sections: 'Signup to eMarketPlace' on the left and 'Signup Today' on the right.

Dashboard:

After successful login, in vendor's dashboard he can see his latest orders, top selling & top rated products' lists. He can see the options to manage his products, update his profile.

The screenshot shows the Vendor Dashboard interface. At the top, there is a header bar with a purple background. On the left, it says "eMarketPlace | Vendor Dashboard". In the center, there is a search bar with the URL "soft/vendor/dashboard". On the right, there are browser controls (refresh, back, forward, etc.) and a battery icon showing 67%.

The main content area has a dark background with a marbled pattern. In the center, the text "Vendor Dashboard" is displayed. To the right of the text is a white dropdown menu with three options: "Update Profile", "Change Password", and "Logout".

Below the main title, there is a section titled "VENDOR DASHBOARD" with three cards:

- Total Orders**: 7 (orange card)
- Product Inventory**: 6 (dark grey card)
- Products Sold**: 7 (blue card)

Below these cards is a section titled "LATEST ORDERS" with a table:

Orderid	Order Date	Total	Shipping Status	Order Status	Payment Method	Action
100021	4th September, 2019	₹ 45735.00	Shipped	Accepted	Cash on delivery	
100020	1st September, 2019	₹ 81225.00	Pending	Accepted	Cash on delivery	
100019	1st September, 2019	₹ 11190.00	Pending	Pending	Cash on delivery	

On the right side of the dashboard, there is a message: "Activate Windows Go to Settings to activate Windows." with a small "v" icon at the bottom right.

The screenshot displays a dark-themed dashboard with a purple header containing navigation links: Dashboard, Orders, Products, Reviews, Contact Us, and StarTech. Below the header are three cards: 'Total Orders' (7), 'Product Inventory' (6), and 'Products Sold' (7). A main section titled 'LATEST ORDERS' lists eight recent orders with columns for Order id, Order Date, Total, Shipping Status, Order Status, Payment Method, and Action. Below this are two tables: 'TOP SELLING PRODUCTS' and 'TOP RATED PRODUCTS', each with columns for Title, Sales, Price and Title, Rating, Price respectively. A sidebar on the right side of the dashboard displays the message 'Activate Windows Go to Settings to activate Windows.'

Profile:

Vendor can update his profile by clicking the option “*Update Profile*”. He can change his password.

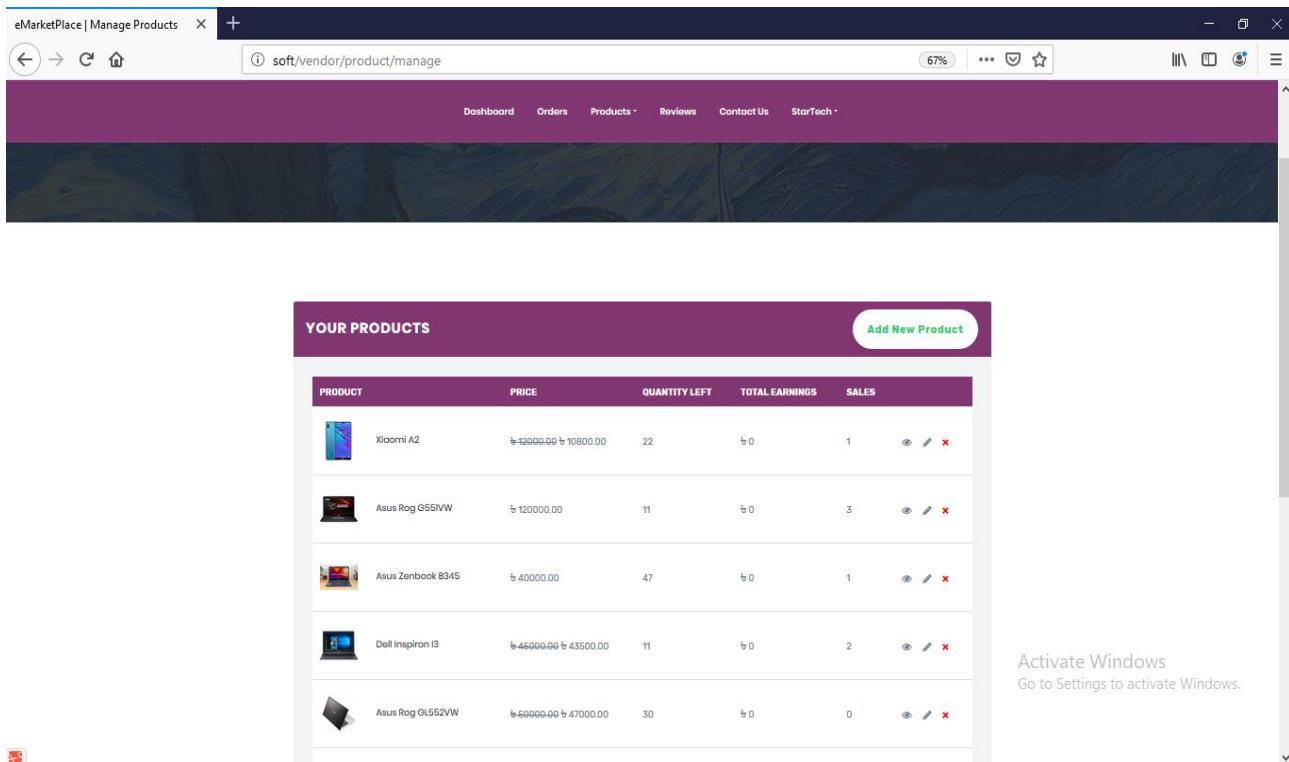

The screenshot shows a web browser window titled "eMarketPlace | Settings". The URL in the address bar is "soft/vendor/settings". The page has a dark purple header with navigation links: Dashboard, Orders, Products, Reviews, Contact Us, and StarTech. Below the header is a "Settings" section with a purple header bar. The main content area contains fields for updating the profile:

- Logo:** A placeholder image for a logo, with a "Choose Logo" button below it.
- Shop Name:** An input field containing "StarTech".
- Address:** An input field containing "12, Elephant Road".
- Email:** An input field containing "abhibhattacharjee66@gmail.com".
- Phone:** An input field containing "01949517422".

At the bottom of the form is a purple "UPDATE PROFILE" button. To the right of the form, there is a promotional message: "Activate Windows Go to Settings to activate Windows." A small red icon is visible in the bottom left corner of the browser window.

Product Management & Update:

After clicking the option “*Product Inventory*” in the dashboard vendor will come to product management page where he can see his products list, can view individual products and also can see the option to add new products.

The screenshot shows a web browser window titled "eMarketPlace | Manage Products". The URL in the address bar is "soft/vendor/product/manage". The page has a dark header with navigation links: Dashboard, Orders, Products, Reviews, Contact Us, and StarTech. Below the header is a purple banner with the text "YOUR PRODUCTS". A green button labeled "Add New Product" is visible. The main content area displays a table with five rows, each representing a product. The columns are: PRODUCT, PRICE, QUANTITY LEFT, TOTAL EARNINGS, and SALES. Each row includes a small thumbnail image of the product and edit/delete icons. To the right of the table, there is a message: "Activate Windows Go to Settings to activate Windows." A small red icon is located at the bottom left of the page.

PRODUCT	PRICE	QUANTITY LEFT	TOTAL EARNINGS	SALES
Xiaomi A2	₹12000.00 ₹10800.00	22	₹0	1
Asus Rog G551VW	₹120000.00	11	₹0	3
Asus Zenbook B345	₹40000.00	47	₹0	1
Dell Inspiron i3	₹45000.00 ₹43500.00	11	₹0	2
Asus Rog GL552VW	₹50000.00 ₹47000.00	30	₹0	0

After clicking the “Add New Product” option vendor will come to product upload page where he will be able to add new product.

The screenshot shows the 'Product Upload' page of the eMarketPlace platform. At the top, there's a navigation bar with links for Dashboard, Orders, Products, Reviews, Contact Us, and StarTech. Below the header, the main title 'Product Upload' is centered. On the left, there's a section for 'Preview Images **' showing two thumbnail images of a laptop, each with a red 'X' button to delete. A purple button labeled '+ Add a photo' is below these thumbnails. A note says 'Maximum 5 images can be uploaded'. To the right, there are input fields for 'Title **' (containing 'HP Pavilion 15.6" Full HD Touchscreen Laptop'), 'Stock (quantity) **' (containing '12'), and 'Price (TK)**' (containing '75500'). Further down, there are dropdown menus for 'Category **' (set to 'Computer & Laptop') and 'Subcategory **' (set to 'HP'), and a field for 'Product Code (Optional)' with placeholder text 'Enter product code...'. In the bottom right corner, there's a reminder to 'Activate Windows Go to Settings to activate Windows.'

View Product:

Vendor can view his products.

The screenshot shows a web browser displaying a product page for an HP Pavilion 15.6" Full HD Touchscreen Laptop. The page has a dark header with navigation links like Dashboard, Orders, Products, Reviews, Contact Us, and StarTech. The main content area features a large image of the laptop with its screen displaying the Windows desktop. Below the image, the product name 'HP Pavilion 15.6" Full HD Touchscreen Laptop' is displayed, along with a price of ₹ 75500. To the right, there's a sidebar with product details: Subcategory (COMPUTER & LAPTOP), Product Code (VHPav156), Stock (In Stock), and Shop Name (StarTech). Below the main image, there are two smaller thumbnail images of the laptop from different angles. At the bottom, there are three tabs: DESCRIPTIONS (which is active and highlighted in purple), ITEM REVIEW, and VENDOR INFORMATION. A note at the bottom right says 'Activate Windows Go to Settings to activate Windows.'

Edit Product:

Vendor can also edit the product details and delete products.

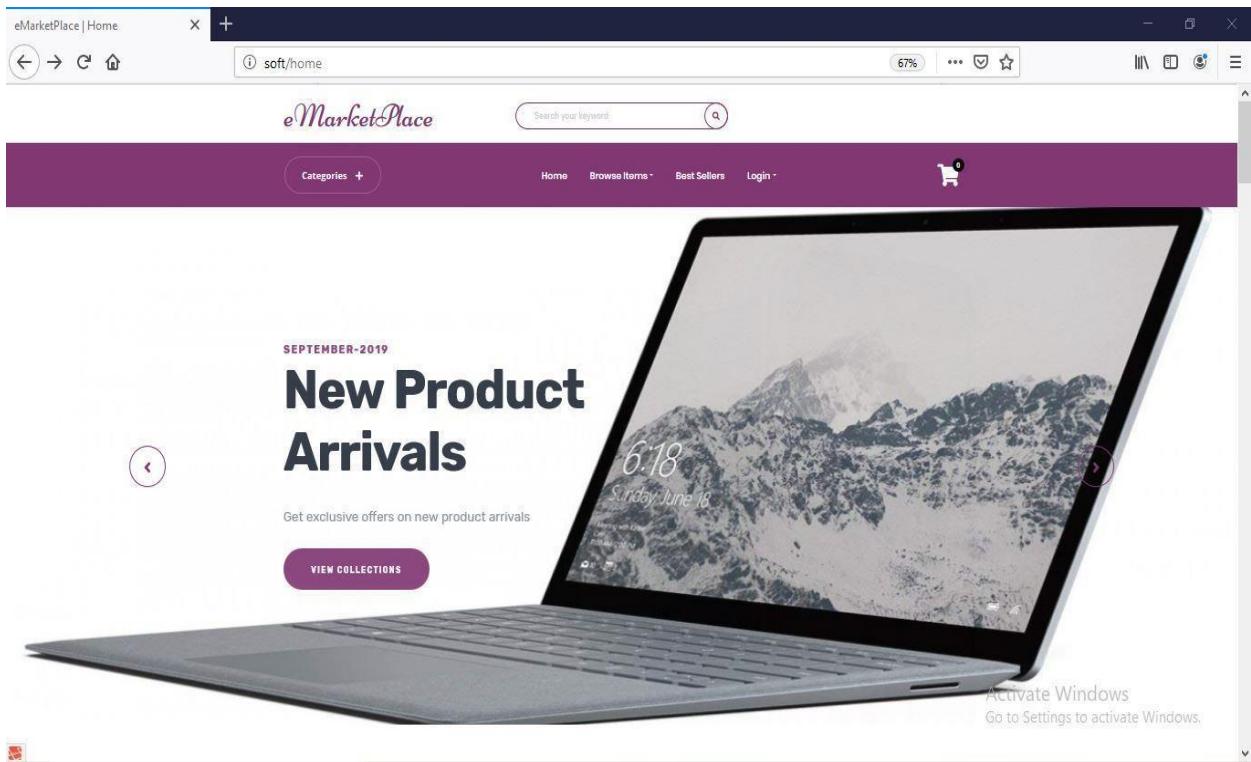

The screenshot shows the 'eMarketPlace | Product Update' interface. At the top, there are two preview images of an HP Pavilion laptop. Below them is a button to 'Add a photo'. The product details are listed: Title is 'HP Pavilion 15.6" Full HD Touchscreen Laptop', Stock quantity is '13', and Price (TK) is '75500.00'. The Category is 'Computer & Laptop' and Subcategory is 'HP'. A Product Code field contains '98tyd6yc'. The Description section includes a rich text editor and the following text:
HP Pavilion 15.6" Full HD Touchscreen Laptop,
Intel Core i7-8565U, 8GB Memory, 512GB SSD, Backlit Keyboard,
2 Year Warranty Care Pack, Windows 10 Home, Silver Color

The screenshot shows the same product update page. In the bottom left, there is an 'Offer' section with a dropdown set to 'Off'. A modal window titled 'Success!' is displayed, stating 'product has been updated successfully!' with an 'OK' button. The main content area shows the same product details as the previous screenshot. At the bottom, there is a footer with the eMarketPlace logo, navigation links for 'Our Services' and 'Information', and social media icons. On the right side of the footer, there is an 'Activate Windows' section with the text 'Go to Settings to activate Windows.'

After successful login user will come to his home where he will see the options to manage his profile, his orders, his wishlist.

Profile:

After clicking the option “*Profile*” user can update his profile details. He can also change his password by clicking the option “*Change Password*”.

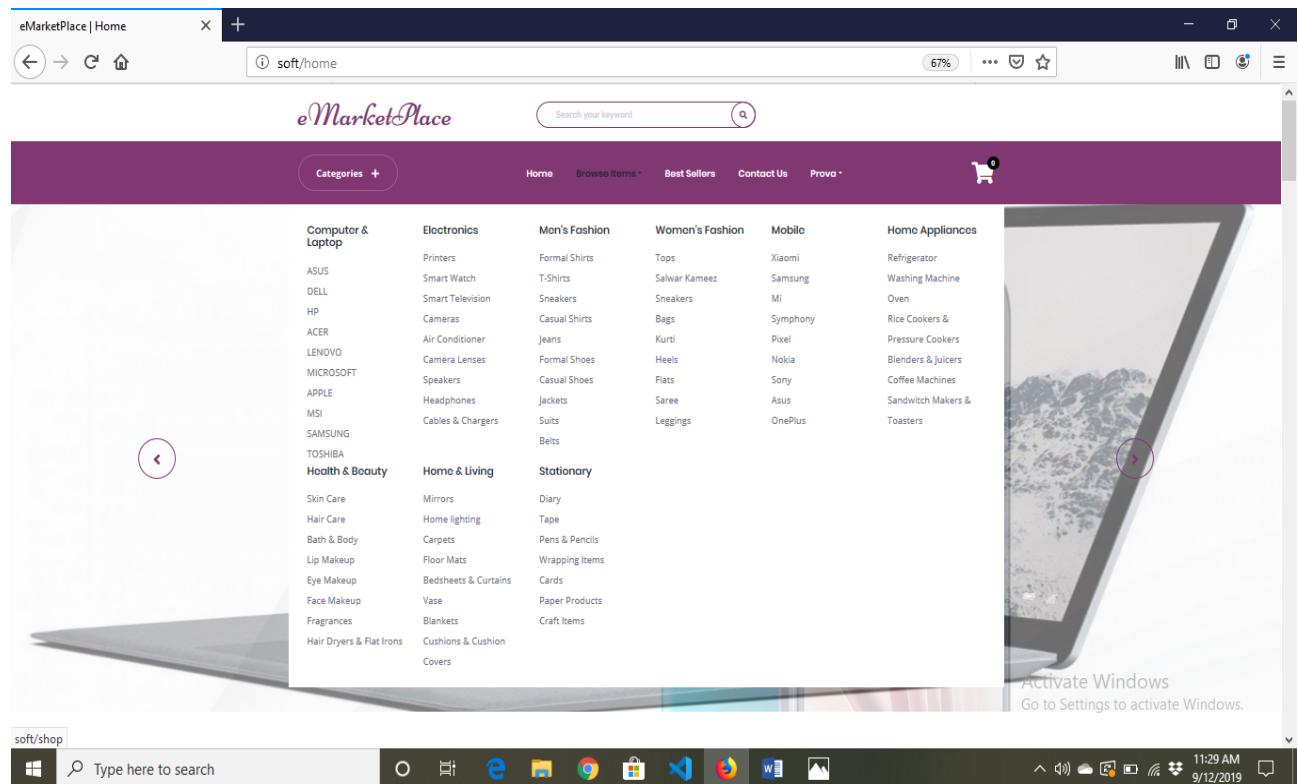

The screenshot shows a web browser window for 'eMarketPlace | Personal Information'. The title bar includes the URL 'soft/profile'. The main content area features a dark background with a wavy pattern. At the top center, it says 'Personal Information'. On the left, there's a sidebar titled 'My Account' with options: 'Update Profile' (which is highlighted in purple), 'Wishlist', 'Orders', 'Change Password', and 'Logout'. The main right section is titled 'Personal Information' and contains the following fields:

First Name	RudaiBa	Last Name	Admin
Email	rudaibaadmin@gmail.com	Phone Number	01949517422
Date of Birth	mm/dd/yyyy	Gender	Select Gender
City	Dhaka	Zip/Postal Code	1200
Address	12 Elephant Road		

On the far right, there's a message: "Activate Windows Go to Settings to activate Windows." A small red icon is visible at the bottom left of the page.

Browse Items:

User can browse items by clicking the option “*Browse Items*” and selecting his wanted categories or subcategories.

The screenshot shows a web browser window for 'eMarketPlace | Shop'. The address bar displays 'soft/shop/1'. The page title is 'eMarketPlace' with a subtitle 'Computer & Laptop'. The main heading 'Computer & Laptop' is centered on a dark background. A sidebar on the left lists categories under 'COMPUTER & LAPTOP': ALL CATEGORIES, COMPUTER & LAPTOP (selected), ASUS, DELL, HP, ACER, LENOVO, MICROSOFT, APPLE, and MSI. The main content area shows three laptop products: 'Acer Swift SF314-52 8th G...', 'HP ENVY x360 - 13-ag0035a...', and 'Asus Rog G551VV'. Each product has a 'COMPUTER & LAPTOP' label and a small image. A 'Sort By' dropdown menu is visible above the products. A message 'Activate Windows Go to Settings to activate Windows.' is displayed on the right.

Wishlist:

By clicking the love shape in the product view page , user can add that product in his wishlist. By clicking the option “*Wishlist*” he can view his wish listed items.

The screenshot shows a product details page for an HP ENVY x360 laptop. At the top, there's a purple header bar with navigation links like 'Categories', 'Home', 'Browse Items', 'Best Sellers', 'Contact Us', and 'Prova'. A shopping cart icon with a '0' is also present. The main title 'Product Details' is centered above the product image. The product image shows a black HP ENVY x360 laptop with its screen open, displaying a landscape scene. To the right of the image, there are ratings (5 stars), reviews ('No Reviews'), and an 'Orders (0)' button. Below the image, the product name 'COMPUTER & LAPTOP HP ENVY x360 - 13-ag0035au' is displayed, along with the price '₹ 99000'. Technical specifications include Subcategory: HP, Product Code: 9m5z2a7d, Stock: In Stock, and Shop Name: ProvaShop. There are also buttons for quantity selection and an 'ADD TO CART' button. A small note at the bottom right says 'Activate Windows Go to Settings to activate Windows.'

Add To Cart:

Clicking the option “*Add to cart*” user can add products to his cart. To add product in the cart login is not mandatory.

The screenshot shows a web application titled "Cart Management". At the top, there is a navigation bar with links for "Categories +", "Home", "Browse Items", "Best Sellers", "Contact Us", "Prova", and a shopping cart icon with a notification count of 1. Below the navigation bar is a large, dark banner with a textured background. In the center of the banner, the words "Cart Management" are displayed in a white, sans-serif font.

The main content area features a table for managing the cart. The columns are labeled "Product", "Price", "Quantity", and "Total". A single item is listed: "HP ENVY x360 - 13-ag0035au" with a price of ₹99000. The quantity is set to 1, indicated by a minus sign, a blue "1", and a plus sign. The total amount is also ₹99000. To the left of the product image is a red "X" button.

Below the table are three buttons: "GO TO SHOPPING" (in white text on a dark background), "UPDATE CART" (in small gray text on a light background), and "PROCEED TO CHECKOUT" (in white text on a blue background).

On the right side of the page, there is a section titled "Payment Method:" with the option "Cash on delivery". Below this, a "Cart Totals:" section shows "Subtotal" as ₹99000 and "Shipping Charge" as ₹60. To the right of the shipping charge, there is a link to "Activate Windows" with the sub-instruction "Go to Settings to activate Windows." A small red square icon is located on the far left edge of the page.

Checkout:

By clicking the option “*Proceed to Checkout*” user can checkout and order products. But to checkout he must login first. He can manually add his shipping details or the details given in his profile becomes his shipping details automatically.

The screenshot shows the eMarketPlace Checkout page. At the top, there's a header bar with a back arrow, forward arrow, refresh icon, and a search bar containing "soft/checkout". Below the header is a purple navigation bar with links for "Categories", "Home", "Browse Items", "Best Sellers", "Contact Us", "Prova", and a shopping cart icon with a notification count of 1. The main content area is divided into two sections: "Shipping Details" on the left and "Your Order" on the right.

The page has a purple header with the 'eMarketPlace' logo and navigation links for Home, Browse Items, Best Sellers, Contact Us, Prova, and a shopping cart icon with a '0' notification. The main content area features a dark background with a painting-like texture and the word 'Orders' in white. On the left, there's a sidebar titled 'My Account' with options: Update Profile, Wishlist, Orders (which is highlighted in purple), Change Password, and Logout. The main content area displays a table of orders:

Order Id	Order Date	Total	Payment Method	Order Status	Shipping Status
100022	12th September, 2019	₹ 104010.00	Cash on delivery	Pending	Pending
100021	4th September, 2019	₹ 45735.00	Cash on delivery	Accepted	Shipped

For each order, there is a 'view' button with a magnifying glass icon. At the bottom right of the page, there is a message: 'Activate Windows' and 'Go to Settings to activate Windows.'

The screenshot shows a web browser window with two tabs: "eMarketPlace | Orders" and "eMarketPlace | HP ENVY x360 - 13-". The main content area displays a product page for an HP ENVY x360 laptop. At the top, there are navigation links for "Categories", "Home", "Browse Items", "Best Sellers", "Contact Us", and "Prova". A shopping cart icon indicates 0 items. Below the navigation is a large "ADD TO CART" button.

On the left, there are two thumbnail images of the laptop: one showing the back and another showing the front. Below these are three tabs: "DESCRIPTIONS", "ITEM REVIEW" (which is highlighted in purple), and "VENDOR INFORMATION".

The "ITEM REVIEW" section displays a rating of **4/5.0** based on 1 review. The review is attributed to "Prova" and reads: "Nice Product , but High Price". It was posted on "Sep 12, 2019 @ 7:25 AM" and has a "★★★★★" rating. To the right of the review, there is a message: "Activate Windows Go to Settings to activate Windows.".

At the bottom, there is a "RELATED PRODUCTS" section showing three additional laptop thumbnails.

Give Feedback:

User can give feedback for each order after getting that order delivered to him.

The screenshot shows a web browser window with two tabs: "eMarketPlace | Orders" and "eMarketPlace | Ordered Products". The main content area displays "Order Information" for Order ID #100022. The order status is "Accepted" and the shipping status is "Shipped". The order date is 12th September, 2019. The payment method is "Cash on Delivery". A modal window titled "HP ENVY x360 - 13-ag0035au" is open, asking for feedback. The "Feedback Type" dropdown is set to "Complaint" and the feedback text area contains "Late delivery". Below the text area are "Submit" and "Close" buttons. To the right of the modal, there is an "Order Summary" table:

Order Summary	
CART AMOUNT	₹ 99000
COUPON (Discount)	- ₹ 0.00
SUBTOTAL	₹ 99000.00
TAX	₹ 4950
SHIPPING COST	₹ 60
TOTAL	₹ 104010.00

At the bottom right of the page, there is a message: "Activate Windows Go to Settings to activate Windows."

The screenshot shows a web browser window with two tabs: "eMarketPlace | Orders" and "eMarketPlace | Ordered Products". The main content area displays the "eMarketPlace" logo at the top, followed by a navigation bar with links to "Home", "Browse Items", "Best Sellers", "Contact Us", and "Prova". A search bar is also present. A green banner at the top right says "Thank you for your feedback." Below the header, the page title "Order #100022" is displayed. A green callout box contains the text "Order Complete! Consider leaving a public review on the product page(s) and feedback(s) on the order." To the right, there are two boxes: "Order Information" (containing Order ID #100022, Order Status: accepted, and Order Date: 12th September, 2019) and "Shipping/Payment Details" (containing Shipping Status: shipped and Payment Method: Cash on Delivery). On the far right, a message says "Activate Windows Go to Settings to activate Windows." A small red icon is visible on the left edge of the page.

Order Complete! Consider leaving a public review on the product page(s) and feedback(s) on the order.

Conclusion :

The **eMarketPlace** software is implemented thoroughly so that it can perform all its functionality properly and the features that we planned to develop, all were implemented in this software. The main function is to sell products to the users which can be carried out easily in this software. After the final implementation all the functionality is working fine. But we do need to test some features of this software.

We are hoping to use this software in the real world to buy and sell products.
